WORK HISTORY

Full Stack Web & Mobile App Developer | Bluehance360 LLP - Mumbai, Maharashtra ***March 2023 - Present***

- Developed and maintained client-facing web applications using Wix Velo, JavaScript, and custom backend logic in a production environment.
- Built and customized dynamic features such as product pages, search, calculators, and form-based workflows.
- Integrated third-party APIs, authentication, and interactive functionality based on project requirements.
- Collaborated directly with clients to gather requirements and deliver scalable, maintainable solutions.
- Improved application stability and maintainability through modular code, debugging, and performance optimization.

Web Developer | Mitr Learning & Media Pvt. Ltd. - Mumbai, Maharashtra ***May 2021 - March 2023***

- Worked on production web applications, supporting content integration, configuration, and customization using templates and GUI-based tools.
- Made minor HTML and JavaScript updates and occasionally modified existing React.js components.
- Customized application behavior and content through JSON configuration files.
- Collaborated with team members using task tracking and timelines to meet delivery deadlines while following professional reporting standards.
