 - GitHub, GitHub Actions (CI/CD)
 - Visual Studio Code
 - Android Studio
 - Vercel, Netlify, AWS
 - Google Play Console (Android)
 - App Store Connect (iOS)
- **Additional Programming Languages:**
 - C, C++, Java, Python
- **Languages:**
 - English, Hindi

WORK HISTORY

Web Developer | Bluehance360 LLP - Mumbai, Maharashtra

March 2023 - Present

- Developed and maintained client-facing web applications using Wix Velo, JavaScript, and custom backend logic in a production environment.
- Built and customized dynamic features such as product pages, search, calculators, and form-based workflows.
- Integrated third-party APIs, authentication, and interactive functionality based on project requirements.
- Collaborated directly with clients to gather requirements and deliver scalable, maintainable solutions.
- Improved application stability and maintainability through modular code, debugging, and performance optimization.

- Worked on production web applications, supporting content integration, configuration, and customization using templates and GUI-based tools.
- Made minor HTML and JavaScript updates and occasionally modified existing React.js components.
- Customized application behavior and content through JSON configuration files.
- Collaborated with team members using task tracking and timelines to meet delivery deadlines while following professional reporting standards.

KEY PROJECTS

- **DotBox - A Dots and Boxes Game**

Interactive browser-based game with animations and complete game logic, deployed as both a web application and Android app.

Tech: HTML, CSS, JavaScript, SVG, Java (Android)

Web: <https://dotbox-web-visheshlearns-projects.vercel.app>

Android App: <https://play.google.com/store/apps/details?id=com.vishesh.dotbox>

- **Ozzy School - School Management & Learning Platform**

Custom authentication system with email/password login, OTP-based password reset, and session-based access control. Implemented role-based content delivery using custom authentication flow and backend logic.

Tech: React.js, SCSS, Node.js, Express, TypeScript, MariaDB, GitHub Actions (CI/CD), Wix (Editor, Velo)

Login (Custom): <https://login.ozzy.school>

Post-login (Wix): <https://www.ozzy.school/available-courses>

- **Immogy - Real Estate Platform**

Custom-built real estate platform allowing users to browse and explore property listings with a user-friendly interface.

Tech: Wix (Studio, Velo)

<https://www.immogy.be>

- **Keksi - Product Page**

Designed and implemented a custom product page for a premium bakery to enhance the online shopping experience.

Tech: Wix (Studio, Velo)

<https://www.keksi.com/product-page/box-of-6-1>

- **Typeify - Typing Speed Test**

Interactive typing speed test tool with real-time performance metrics and custom app development and integration.

Tech: Wix (Editor, Velo), HTML, CSS, JS

<https://www.typeify.co.uk/professional-speed-test>

- **The Charter Yacht Company - Yacht Search & E-brochure**

Developed a yacht search & e-brochure experience with API integration to streamline yacht charter selection.

Tech: Wix (Editor, Velo)

<https://www.thecharteryachtcompany.com/search-yacht-options>

- **Wildsparq - Leadership Assessment Tools**

Developed interactive tools for an online leadership training platform, including calculators and assessment workflows.

Tech: WordPress, HTML, CSS, JavaScript

- **Hagah**

Maintained and enhanced a meditation app with free and premium audio streaming, improving stability, UI/UX, authentication, and implementing HLS-based audio delivery, while actively contributing to ongoing development of the app, admin panel, and backend services.

Tech: React.js, React Native, TypeScript, Node.js, Express.js, MongoDB, Mongoose

Play Store: <https://play.google.com/store/apps/details?id=com.hagah.meditation>

App Store: <https://apps.apple.com/in/app/hagah/id6749614838>

- **Clares**

Maintained and enhanced the Claire's website built on Wix Studio, implementing provided designs and functionality for the store and ear-piercing sections, developing a user portal, and integrating external APIs to support site features.

Tech: Wix (Studio, Velo)

<https://www.clares.com/>

- **The Mindset IQ**

Worked on The Mindset IQ, a web platform offering science-backed mindset and culture-fit assessments to support data-driven hiring and talent evaluation.

Tech: Wix (Editor, Velo), HTML, CSS, JavaScript
