PROFESSIONAL SUMMARY

Full Stack Mobile App Developer with 3+ years of professional experience, delivering 4+ production mobile applications for 4+ clients, most serving 1,000+ users. Turns client requirements into well-scoped, maintainable digital products. Experienced in making technical decisions across platforms, languages, databases, integrations, and deployment workflows. Combines hands-on development with clear documentation, practical development standards, risk-aware system design, and structured client communication to improve delivery from discovery through handover. Improved application performance by ~20% and reduced development or deployment time by ~30% through practical delivery practices. Leverages AI tools and APIs to build smarter features, accelerate development, and improve code quality.

TECHNICAL SKILLS

- **Frontend:**
  - React Native (with Expo)
  - Flutter (with Dart)
  - TypeScript, SCSS
- **Backend:**
  - Node.js, Express
- **Database:**
  - MongoDB, Mongoose
  - MySQL, MariaDB
- **Cloud & Integrations:**
  - AWS (S3, MediaConvert, Transcribe)
  - Stripe
  - RevenueCat
  - REST APIs
- **Tools & Deployment:**
  - GitHub, GitHub Actions (CI/CD)
  - Visual Studio Code
  - Vercel, Netlify
  - Google Play Console (Android)
  - App Store Connect (iOS)
- **Technical Leadership & Delivery:**
  - Technical Strategy & Stack Selection
  - Project Scoping, Estimates & Client Plans
  - Documentation, Handover & SOPs
  - Team Coordination, Quality & Risk Reduction
- **Languages:**
  - English, Hindi

EDUCATION

St. Gonsalo Garcia College - Maharashtra, India - **BSc IT**

Girija Mhatre Junior College - Maharashtra, India - **Higher Secondary School Certificate**

PROFESSIONAL EXPERIENCE

Full Stack Developer | Bluehance360 LLP - Mumbai, Maharashtra ***March 2023 - August 2026***

- Developed and maintained client-facing web applications using Wix Velo, JavaScript, and custom backend logic in a production environment.
- Built and customized dynamic features such as product pages, search, calculators, and form-based workflows.
- Integrated third-party APIs, authentication, and interactive functionality based on project requirements.
- Built and maintained cross-platform mobile applications for Android and iOS using React Native and Expo.
- Implemented mobile features, integrated backend APIs, and managed application builds and releases through Expo, Google Play Console, and App Store Connect.
- Collaborated directly with clients to gather requirements, define project scope, and translate needs into clear build plans and maintainable solutions.
- Advised on suitable platforms, tools, databases, and implementation approaches based on project requirements and long-term maintainability.
- Created and maintained technical documentation, including requirements, implementation notes, setup guidance, and handover information for client and team use.
- Improved application stability and maintainability through modular code, debugging, performance optimization, and practical delivery practices.
- Managed application deployment and release workflows across web, Android, and iOS environments using GitHub Actions, Vercel, AWS, Google Play Console, and App Store Connect.
- Provided clients and team members with implementation guidance and practical best practices, including secure MongoDB data handling, backup planning, and recovery considerations to reduce data-loss risk.

Web Developer | Mitr Learning & Media Pvt. Ltd. - Mumbai, Maharashtra ***May 2021 - March 2023***

- Worked on production web applications, supporting content integration, configuration, and customization using templates and GUI-based tools.
- Made minor HTML and JavaScript updates and occasionally modified existing React.js components.
- Customized application behavior and content through JSON configuration files.
- Collaborated with team members using task tracking and timelines to meet delivery deadlines while following professional reporting standards.
- Supported structured team workflows through clear progress updates, coordination, documentation, and timely communication.

SELECTED PROJECTS

- **Hagah**

  Maintained and enhanced a meditation platform across the mobile app, admin panel, and backend services, implementing authentication, premium audio streaming, downloadable audio, playlists, UI/UX improvements, and an AWS-based HLS streaming pipeline that automatically converts uploaded tracks for adaptive playback.

  Tech: React.js, React Native (with Expo), TypeScript, Node.js, Express.js, MongoDB, Mongoose, AWS (S3, MediaConvert), i18next

  Play Store: play.google.com/store/apps/details?id=com.hagah.meditation

  App Store: apps.apple.com/in/app/hagah/id6749614838

- **Pastors University**

  Built and maintained the learner-facing web app and admin tooling for a pastoral leadership platform, including course access, payments, multilingual content, media workflows, and an AWS-based automated HLS media pipeline integrated with backend APIs.

  Tech: React.js, React Native (with Expo), Vite, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, Stripe, AWS (S3, MediaConvert), i18next

  Web: learning.pastorsuniversity.org

  Play Store: play.google.com/store/apps/details?id=org.pastorsuniversity.learning

  App Store: apps.apple.com/us/app/pastors-university/id6751183536

- **Go Make Disciples (CPI)**

  Built and maintained a faith-based streaming and learning platform spanning mobile, web, and admin applications, implementing subscription-based access to courses, books, and streaming content, an admin book management system, multilingual support, and an AWS-based automated HLS media pipeline integrated with backend APIs.

  Tech: React.js, React Native (with Expo), Next.js, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, RevenueCat, Stripe, AWS (S3, MediaConvert, Transcribe), i18next
