EDUCATION

St. Gonsalo Garcia College - Maharashtra, India - **BSc IT** | *(Partial)*

Girija Mhatre Junior College - Maharashtra, India - **Higher Secondary School Certificate**

PROFESSIONAL EXPERIENCE

Operations & Project Support Executive | Bluehance360 LLP - Mumbai, Maharashtra

March 2023 - August 2026

- Coordinated with clients to understand requirements, define scope, and convert business needs into clear project steps and action plans.
- Maintained project records, task follow-ups, and operational documentation to support smooth delivery and consistent team coordination.
- Prepared and updated implementation notes, setup guides, handover files, and process documentation for both internal teams and clients.
- Tracked ongoing tasks, deadlines, and issue status to ensure timely execution and reduce delays in project workflows.
- Communicated progress, risks, and action points clearly with clients and team members to maintain strong service continuity.
- Supported deployment and release follow-ups across web, Android, and iOS project environments, ensuring smooth completion of operational tasks.
- Assisted with troubleshooting, issue tracking, and technical validation to resolve problems efficiently and maintain service quality.
- Worked with data handling, secure information practices, backup planning, and risk awareness to support business continuity and improve operational reliability.

Web Operations & Support Associate | Mitr Learning & Media Pvt. Ltd. - Mumbai, Maharashtra

May 2021 - March 2023

- Supported production web operations through content updates, configuration changes, and routine platform maintenance tasks.
- Handled task-based updates and workflow coordination to ensure smooth execution of project activities and content delivery.
- Maintained structured records and internal documentation to support reporting, tracking, and operational visibility.
- Assisted with JSON configuration edits and content updates to align digital assets with defined business requirements.
- Collaborated with team members on deadlines, issue follow-ups, and progress tracking while maintaining clear communication and reporting standards.
- Contributed to team workflows through organized updates, task coordination, documentation, and timely communication throughout the delivery process.

SELECTED PROJECTS

- **DotBox - Browser & Android Game (Personal Project)**

  Designed and developed a browser-based implementation of the classic Dots and Boxes game featuring complex game logic, mathematical algorithms, responsive UI, custom animations, and configurable gameplay. Deployed as both a web application and Android app.

  Tech: HTML, CSS, JavaScript, SVG, Java (Android)

  Web: dotbox-web-vishesh-learn.vercel.app

  Android App: play.google.com/store/apps/details?id=com.vishesh.dotbox

- **Ozzy School - School Management & Learning Platform**

  Built a custom authentication system with email/password login, OTP-based password reset, session-based access control, and role-based content delivery, alongside the public website.

  Tech: React.js, SCSS, Node.js, Express, TypeScript, MariaDB, GitHub Actions (CI/CD), Wix (Editor, Velo)

  Website (Wix): ozzy.school

  Login (Custom): login.ozzy.school

- **City to City Asia Pacific - Annual Report 2025**

  Built a static, cinematic single-page annual report site with scroll-driven choreography, framed editorial photography, interactive financial charts, and a multi-section content flow (hub cities, metrics, programs, and a regional calendar) driven by typed, structured content.

  Tech: Next.js, React, TypeScript, GSAP (ScrollTrigger), Lenis, Recharts

  Web: city-to-city-annual-report-2025.citytocityasiapacific.com

- **Typeify - Typing Speed Test**

  Interactive typing speed test tool with real-time performance metrics and custom app development and integration.

  Tech: Wix (Editor, Velo), HTML, CSS, JS

  Web: typeify.co.uk/professional-speed-test

- **Hagah**

  Maintained and enhanced a meditation platform across the mobile app, admin panel, and backend services, implementing authentication, premium audio streaming, downloadable audio, playlists, UI/UX improvements, and an AWS-based HLS streaming pipeline that automatically converts uploaded tracks for adaptive playback.

  Tech: React.js, React Native, TypeScript, Node.js, Express.js, MongoDB, Mongoose

  Play Store: play.google.com/store/apps/details?id=com.hagah.meditation

  App Store: apps.apple.com/in/app/hagah/id6749614838

- **Pastors University**

  Built and maintained the learner-facing web app and admin tooling for a pastoral leadership platform, including course access, payments, multilingual content, media workflows, and an AWS-based automated HLS media pipeline integrated with backend APIs.

  Tech: React.js, Vite, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, Stripe, AWS (S3, MediaConvert), i18next

  Web: learning.pastorsuniversity.org

- **Go Make Disciples (CPI)**

  Built and maintained a faith-based streaming and learning platform spanning mobile, web, and admin applications, implementing subscription-based access to courses, books, and streaming content, an admin book management system, multilingual support, and an AWS-based automated HLS media pipeline integrated with backend APIs.

  Tech: React Native (Expo), Next.js, React, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, RevenueCat, Stripe, AWS (S3, MediaConvert, Transcribe), HLS.js, i18next

  Website: gomakedisciples.tv

  Play Store: play.google.com/store/apps/details?id=tv.gomakedisciples.app

  App Store: apps.apple.com/us/app/go-make-disciples/id6762123535

- **The Mindset IQ**

  Developed a highly configurable assessment platform featuring custom questionnaire generation, role-based dashboards, subscription-aware business rules, automated candidate workflows, dynamic result calculation, and branded PDF report generation driven by admin-defined configurations.

  Tech: Wix (Editor, Velo), HTML, CSS, JavaScript

  Web: themindsetiq.com
